Notes

The lectures take place at the 'Aula 11' of the Science Faculty, except for the ones of 'Detections Methods and Techniques for Particle Physics', that take place at the 'Aula 10', and their laboratory, that take place at the "Laboratorio de Radiactividad", of the Science Faculty.

The Laboratory sessions of 'Detections Methods and Techniques for Particle Physics' will take place during December and/or Jan

As much as possible, the course 'Frontier Research in Astrophysics and Particle Physics' will take place on FRIDAY morning. These lectures would take place on-line or at the classroom (either at the 'Aula 11' of the Science Faculty or at the "Sala Luis Pesquera", IFCA), depending on the needs of the speakers (take into account that many of them come from abroad).

"DMPP" = "Detections Methods and Techniques for Particle Physics"

"EA", "Extrag. Astroph." = "Extragalactic Astrophysics"

"HPC" = "High Performance Computing"

"MMEC" = "Multi-messenger Exploration of the Cosmos"

Final grades for the first semester: ordinary evaluation 13 February

extraordinary evaluation 27 February

Final grades for the second semest ordinary evaluation 16 June

extraordinary evaluation 30 June

Exams first semester: ordinary 26-30 January (excluding 28 January)

extraordinary 16-20 February

Exams second semester: ordinary 1-5 June

extraordinary 15-19 June
